Surface finish symbols are standardized to communicate roughness levels succinctly. The typical notation includes:

- Basic Symbol: A check mark or a check mark with a number indicating roughness in micrometers (e.g., Ra 1.6 μ m).
- Leader Line: An arrow pointing to the surface.
- Finish Pattern: Arrows indicating the direction of machining or polishing.

For example, a symbol with an "M" indicates machining, while a "R" indicates a rough finish.

Welding Symbols

Welding symbols are among the most complex, with multiple components conveying comprehensive information:

- Arrow Line: Points to the joint location.
- Reference Line: Contains symbols describing the weld type.
- Arrow Side and Other Side: The side of the joint where the weld is applied.
- Supplementary Symbols: Indications of weld size, length, contour, and finishing.

For instance, a fillet weld symbol placed on the reference line with a numerical value specifies the weld size.
