Design and Architectural Features of the Church of Light

Site and Context

The church is situated in a quiet area of Osaka, surrounded by urban development yet designed to evoke tranquility and introspection. The site choice and the building's orientation play a crucial role in the overall experience, with the structure oriented to align with the path of the sun, ensuring that natural light interacts dynamically with the interior space.

Materiality and Construction

with the spiritual themes of the space.

Form and Layout

The church's form is minimal yet powerful. Its most striking feature is the simple rectangular plan with a gabled roof. The interior space is divided into two main parts:

- The nave, where congregants gather, features a stark, open space that emphasizes verticality and openness.
- The altar area, which is subtly defined, focuses attention on the symbolic elements within the space.
